

Supporting Children with Autism within Early Childhood

August 10th, 2023
1:00pm-2:00pm CT

Children with autism may have unique strengths and needs in early childhood programs. How can you support autistic children as a care provider? What strategies and resources are available?

In this 60-minute webinar, Dr. Katie Kastner, developmental-behavioral pediatrician, will explore an overview of autism spectrum disorder and discuss strategies for supporting children with autism within early childhood care & education programs.

Featuring:

Dr. Katie Kastner, MD

Clinical Director,
Newborn Follow Up Clinic

Developmental-Behavioral Pediatrician,
Autism and Developmental Disabilities Clinic

Assistant Professor,
UW-Madison School of Medicine & Public Health
Division of Developmental Pediatrics &
Rehabilitation Medicine
